Written by Dr. Karyn Darnell, “True Privilege” is an exciting journey of a family line of abolitionist’s waging a war between two different worlds. New Earth, located in the universe above and beyond, is a whole new world abounding with residents from every generation of humankind, fascinating creatures, Light Beings, the Great Cloud of Witnesses, giant eagles, and breathtaking landscapes.

New Earth is where the Captain of the Lord’s Army lives. He protects the world from Ahaba, Prince of the Air, who is raging a war against the inhabitants of New Earth. These wars rage in the unseen realm of the Old Earth, and it’s up to the Captain of the Lord’s

Army, to vanquish evil and save both worlds.

Called “Truly inspired” by Big Book Magazine, “True Privilege” is the series that the faith-based crowd has been clamoring for, and it fills the void left by the end of “The Lord of the Rings” trilogy.

Dr. Karyn Darnell has been working tirelessly to bring attention to the plight of sex and labor trafficking in this country and around the world. The “True Privilege” series, while fictional, incorporates these real-life issues, and Darnell hopes the books will help bring awareness to this humanitarian fight.

The “True Privilege” series will be available soon and has been called “An epic daring adventure filled with love, passion, and purpose” by Best New Authors Magazine.

Big Book Magazine says, *”this work is truly inspired.”*

The Women Writers Association comments, *”Finally, a woman writes a book that TRULY empowers women.”*
